

## Wedding photos - prices

---

**Photography:** Cost of photography (time and materials)  
per hour Chf 130

Minimum charge of 2 hours

Travel costs by individual agreement.

**The price includes:**

- Preliminary discussion in Interlaken
  - Accompaniment using ultra-modern camera equipment
  - Lighting techniques using flash and/or reflector screen
  - Experience and professionalism
- 

**Data with editing, package**

We sort through the RAW data and select the 'best' photograph from series of similar images and delete any images where people have their eyes closed or there are other undesirable features. The selected files are then edited and the density (brightness), colour neutrality, sharpness, contrast and chromatic aberration corrected. We are happy to carry out this time-consuming work for you to ensure that no more corrections are required. The images are then ready to use as you wish, e.g. in a photo book, photo album or in the form of printed photos.

- With photo correction for reportage wedding photography of up to 2 hours Chf 300
  - With photo correction for reportage wedding photography of up to 3 hours Chf 450
  - With photo correction for reportage wedding photography of up to 6 hours Chf 600
  - With photo correction for reportage wedding photography of up to 12 hours Chf 800
- 

**Data without editing:**

**Chf 30 per 50 photos**

All of the photos (in JPEG\* and Raw file format) will be provided to the couple on a DVD. The data will not be edited, corrected or optimised in any way. Each image must then be edited by the couple. RAW requires a prior knowledge of picture editing using programmes such as Photoshop etc. Häsler Foto Video waives its claim to copyright (copyright protection). No images will be archived by Häsler Foto Video.

\* JPEG is not suitable for post-processing. The disadvantage of JPEG files is that JPEG files are compressed (reduced in size) and this leads to a loss of quality. RAW files are of a higher quality which facilitates the optimal editing of images.
