Uploading & correction of data, burning of DVD
20x30 index, incl. copyright, per image sFr. 3.90

Uploading & correction of data, burning of DVD
incl. copyright, per image sFr. 2.90

The index is an overview of the photos featuring 16 photos on a 20x30cm photo which you can then view and select.

All of the images will be photographed in RAW format at a resolution of greater than 21 megapixels. The photos are edited and the sharpness, density, contrast, colour saturation, chromatic aberration, distortions etc. corrected. The files are then saved in JPEG format in a printable and screen display resolution. Other formats are available, on request.
