The photographer, Erich Häsler, lives in the centre of Interlaken. He is a trained photographer with a specialist Swiss degree qualification. He is extremely knowledgeable about the Interlaken region from the numerous photographic commissions he has undertaken. Equipped with the latest photo technology, it is possible to take amazing pictures in any lighting condition using a radio-controlled flash unit.

The resulting RAW images are then developed and enhanced further on the computer.

We are happy to take photos of you on the mountains of our surrounding area - Harderkulm, Schilthorn, First or Jungfrauoch. However, please remember that this takes a great deal more time and incurs additional train costs. We would be happy to make you an offer upon request.

You will be chauffeured in a modern electric environmentally friendly luxury car Tesla Model X
